**Visitors List Attached**

**Communications received and placed on file:**

**Letter from Robert Fisher**

**Letter from Ethelwyn Alexander**

**President Hingston opened meeting giving direction to the public to speak on the 2010 Parking Lot Special Assessment.**

**Public Comments: There were many property owners present that will be affected by the special assessment and many voiced concerns regarding who will benefit from the parking lot, assessed value versus asking price, asking price too high, actual additional parking need, appraisal and why one was not completed, will it be strictly for employees and if so how will it be monitored, the balance of parking spaces to amount of businesses that will pay is not even, back taxes owed by current owner. General consensus was against the special assessment.**

**President Hingston closed the public hearing at 7:45 pm after all statements were given.**

**Respectfully Submitted;**

**Jeff Hingston; President**

**Lana Jaggi; Clerk**
